

Jelly Major

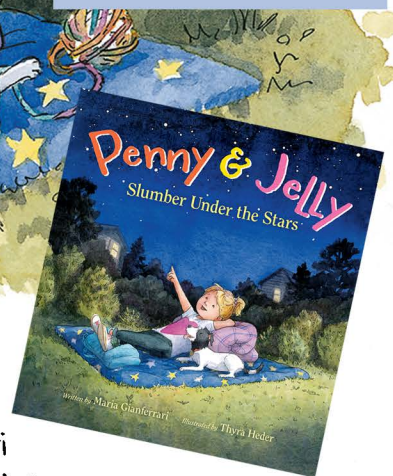

CANIS MAJOR is a constellation of stars. Its name in Latin is "greater dog." Since Penny believes there is no greater dog than Jelly, she has re-named it.

CONSTELLATION CREATION

To better view the Canis Major (aka Jelly Major) constellation:

- 1) Place a towel (folded twice) under this sheet.
- 2) Grab a chopstick or pencil. Carefully poke through the paper on the blue stars.
- 3) Find a flashlight and go to a dark room.
- 4) Hold the paper at arm's length in front of a wall.
- 5) Shine the flashlight through the stars.

Ta-da! It's Jelly Major!
